

**WORKSHEET NO. 4**  
**FARM FIELD DRAINAGE TILE SUPPLEMENTAL INFORMATION**

This Farm Field Drainage Tile Supplemental Information Worksheet is to be used in conjunction with your County Land Use Permit application. This worksheet must be used for the installation of either new and/or replacement farm field drainage tile(s).

Attach additional sheets if necessary

Estimated date project will begin?	Estimated date project will be completed?
Provide an overview of the proposed project?	
Detail how the proposed project will be done — include methods, materials (type and size of tile) and equipment to be used?	
What is the purpose of the proposed project?	
<b><u>REQUIRED ADDITIONAL INFORMATION</u></b>	
Attach an aerial photo of the proposed project site showing an overhead view of the proposed tiling project showing the location, length and size (diameter) of the tile line(s) to be installed (see example on page 2). <i>Aerial photos may be obtained from our office or by using the County's "GIS Webmap Tool" (see Using the GIS Webmap Tool below)</i>	
<b><u>NOTE:</u></b> It is your responsibility to obtain all other permits that may be required from the following governmental agencies: <ul style="list-style-type: none"><li>✓ Local Township • (See Contact Info)</li><li>✓ Army Corps of Engineers • (262) 547-4171</li><li>✓ Dodge County Drainage Board • (920) 887-7413</li><li>✓ Natural Resources Conservation Service • (920) 386-9999</li><li>✓ Wisconsin Department of Natural Resources • (262) 574-2172</li></ul>	
<b><u>NOTE:</u></b> Part of the review process for your proposed tiling project involves the evaluation of your proposed project's location relative to mapped wetlands. As a general rule, tiling projects are NOT ALLOWED within a mapped wetland. This office suggests that you either visit our office or use the County's " <b>GIS Webmap Tool</b> " (see Using the GIS Webmap Tool below) to determine your project's proximity to a mapped wetland.	
<b><u>USING THE GIS WEBMAP TOOL</u></b>	
<ol style="list-style-type: none"><li>1. Go to the Dodge County website (<a href="http://www.co.dodge.wi.us">www.co.dodge.wi.us</a>).</li><li>2. Click on the "<b>GIS Webmap Tool</b>" icon.</li><li>3. If you know the Parcel Identification Number (PIN) of the proposed project site: Click the "<b>Parcel Search</b>" tab and enter the property's PIN information in the search bar. Alternatively, if you know the address of the proposed project site: Click the "<b>Address Search</b>" tab and enter the property's address information in the search bar.</li><li>4. Click/Check the boxes for: <b>DNR Wetlands</b> and <b>Aerial Imagery</b>.</li></ol>
